HUSKEY™ 341 **COPPER ANTI-SEIZE COMPOUND**

DESCRIPTION

HUSKEY 341 Anti-Seize is a heavy-duty, economical industrial anti-seize and lubricating paste containing very finely divided metallic particles in a special no-melt petroleum base grease. **HUSKEY 341** leaves a protective film that seals and protects metal parts even under the most extreme conditions of heat, pressure, steam and water exposure.

USAGE

HUSKEY 341 Anti-Seize was designed as a preventative maintenance tool providing complete parts protection on threaded fittings and all metal surfaces subjected to harsh environments or high temperatures to +2000EF. **HUSKEY 341** was formulated to fit a wide variety of marine, metal working, automotive, oilfield, construction and farm equipment applications. A few such examples include.

- THREADED FITTINGS
- SENSORS
- SPROCKETS & CHAINS
- CASTING EQUIPMENT
- SPLINES & WORM GEARS
- MANIFOLD STUDS & BOLTS
- WINCHES
- BRAKE CAMS & PINS
- CONVEYORS
- VALVE SHAFTS

ADVANTAGES

HUSKEY 341 is not just another anti-seize/thread lubricant. Unlike conventional products on the market the maximum blend of metallic solids has been homogenized into a specially designed petroleum base grease which does not contain clay or soap base thickeners. This helps to provide a superior product that will not melt and run out after application. It also helps to reduce friction of metal surfaces and allows easy movement of threaded connections during assembly and disassembly which makes for tighter make-ups. Other advantages include:

- PROTECTS TO +2000 EF.
- REDUCES TORQUE
- PREVENTS CARBON FUSION
- PREVENTS RUST & CORROSION
- EXCELLENT LUBRICITY
- PREVENTS GALLING & SEIZING
- STEAM & WATER RESISTANT
- CHEMICAL RESISTANT
- EXTREME PRESSURE LUBRICANT
- NON-MELTING

PACKAGE AVAILABILITY

1 gal., 2 gal., 3-1/2 gal., 5 gal. Pails, 15 gal. Keg and 55 gal. Drum
(Custom Packaging Available on Request)
